Defrosting/Handling Tips

Always remove shrinkwrap prior to defrosting. Whole pie: Under refrigeration 4 - 5 hours or overnight. Defrosting whole Key Lime Pies at room temperature is not recommended because of the delicate whipped cream. If you've underestimated your level of business and need to defrost frozen product quickly | it's better to defrost ¼ or ½ pies | slices separated | either under refrigeration or at room temperature depending on time needed (see below). Be sure to put defrosted slices back in the cooler. Plated Slices: Under refrigeration: 1 hour Room Temperature: 30 minutes
