MANUFACTURED IN A FACILITY THAT PROCESSES PEANUTS/NUTS

Defrosting/Handling Tips

Always remove shrink-wrap prior to defrosting. Whole pie: Under refrigeration: 8 ? 10 hours or overnight. Defrosting a whole pie at room temperature is not recommended. If you?ve underestimated your level of business and need to defrost frozen product quickly | it?s better to defrost Â¼ or Â½ pies | with slices separated | either under refrigeration or at room temperature depending on time needed (see below). Once they are defrosted | be sure to put plated slices back in the cooler until serving. Plated Slices: Under refrigeration: 1 hour Room Temperature: 30 ? 45 minutes Best when held refrigerated. Can be served cold or at room temperature. Should be rotated into cooler when on a dessert tray.
