To Whom It May Concern:

It is the policy of the Sweet Street Company that only the highest quality products are manufactured and marketed under strict standards. Our manufacturing facilities abide by the Good Manufacturing Guidelines promulgated by the U.S. Food and Drug Administration and are GFSI certified. Our products are required to meet all food regulations as described in the U.S. Food, Drug and Cosmetic Act and all applicable local, state, federal mandates. Representatives of the Food and Drug Administration, State Department of Agriculture, and outside contractor auditing firms regularly inspect our facilities and review our Quality programs. These Quality programs, which include HACCP plans, have been specifically designed to ensure that the highest standards for food safety are maintained. Sweet Street is committed to the review and continual improvement of all food safety and quality programs and recall program in place.

Regards,

Jerold Schlegel
