

OUR MANIFESTO[®]

As our commitment to being relentless advocates for our customers strengthens, we are proud to be an agent of change in making our food supply wholesome and transparent. Our Manifesto[®] desserts are NON GMO and made from responsibly sourced ingredients; from cage-free eggs to sustainable chocolates.

RBST FREE DAIRY

All of our liquid milk and cream is rBST free. Our local dairy provider has implemented a policy prohibiting the use of synthetic hormones (rBST) by its farmers and only accepts milk from producers that can provide an affidavit stating their raw milk is rBST free. In addition, the vitamins used in their production are certified GMO free.

NON GMO

The terms NON-GMO and GMO-Free, mean the desserts do not contain genetically modified ingredients. Food in its purest, unadulterated form. Even though there's no official GMO tolerance level in the U.S., we hold ourselves and suppliers to the highest standards. For high-risk crops like corn, soy, and sugar beets, we carefully source non-GMO versions and require certification from our suppliers. We also conduct voluntary testing to ensure our products remain free of GMOs. You can find our latest test results and certifications on our website.

CAGE-FREE EGGS

Our farmer's birds are uncaged in barns, with the ability to nest, perch and dust-bathe.

OUR COCOA SUPPLIERS
HAVE ONGOING SUSTAINABILITY
PROGRAMS WITH THEIR FARMERS.

WE USE
35
SUSTAINABLE
NON GMO
CHOCOLATES
IN OUR BAKERY.

SUSTAINABLE CHOCOLATES

We use over 35 sustainable chocolates throughout our bakery. While these chocolates are not "certified sustainable" our suppliers do provide these same, but certified, chocolates at a premium price. Our suppliers abide by sustainable practices, essential to the success of continued global cocoa bean sourcing and vital to improving the livelihoods of farmers and their communities. These programs include:

- Crop protection and productivity – Supporting long-term stability and success through improved efficiency, cultivating higher quality seedlings and generating sustainable increased yields for farmers
- Advancement of Women – partnering on projects to help overcome barriers for women cocoa farmers
- Addressing Child labor – working towards a supply chain where no children are submitted to dangerous or forced work on cocoa farms.
- Financing & Loans – empowering families in impoverished communities to earn a living wage via cocoa-growing

OUR MANIFESTO[®]
